Welcome to Our Air.

You're cleared to land at Volusia County's airports.
AVIATION IS IN OUR DNA.

All you have to do is look up to know that this is a community that loves aviation.

Daytona Beach International Airport (DAB) ranks high among passengers for ease of use and convenience. It offers daily service aboard Delta Air Lines, American Airlines and JetBlue Airways. DAB is a “teaching airport.” It has taxiway access to the flight line of Embry-Riddle Aeronautical University, whose students train at DAB and other area airports. Those airports (in DeLand, Ormond Beach, New Smyrna Beach and Edgewater) all have adjacent or adjoining commercial property available. In addition, Spruce Creek Fly-In Community has a private airport flanked by a gated, country club community of homes with hangars and taxiway access, a favorite among business executives who love to fly.

If aviation is important to your business, or you just love to fly, you’re cleared to land in Volusia County.

Daytona Beach International Airport (DAB) is Central Florida's preferred airport, serving commercial and general aviation. In addition to convenient daily non-stop service to Atlanta, Charlotte and New York City, DAB is exceptionally user-friendly. Parking is just a few steps from the gates. Security is fast and friendly. And service aboard Delta Air Lines, American Airlines and JetBlue Airways is convenient.

There are three FBOs on the field at DAB, accommodating corporate and general aircraft.

DAB is adjacent to Daytona International Speedway and Embry Riddle Aeronautical University and is just minutes from the Ocean Center meeting, convention and entertainment complex and the World’s Most Famous Beach.

Property: DAB offers large scale real estate holdings for commercial and industrial use such as large aviation and aerospace companies.

Massey Ranch Airpark (X50) is a coastal, fly-in community in Edgewater, I Southeast Volusia County. It is a general aviation airport located outside Class B, C and D airspace. It is just a mile from the Intracoastal Waterway and only three miles from the Atlantic Ocean.

Property: Massey Ranch Airpark is a beautiful setting offering residential, commercial and industrial property with taxiway access for aviation businesses and support services.

MasseyRanchAirpark.com

New Smyrna Beach Municipal Airport (EVB) is centrally located, convenient to the Daytona Beach area, Kennedy Space Center, the beaches, Central Florida's I-4 Corridor and much more.

Property: Aviation and non-aviation buildings are available, along with shovel-ready lots for development in the adjacent industrial park. Zoning is in place for light industrial activity. Major roadways, on-site charter services and full city services are available to support tenants.

CityOfNSB.com/65/airport

Ormond Beach Municipal Airport (OMN) is a busy general aviation facility located between I-95 and U.S. 1, with easy access to all of the greater Daytona Beach area and the I-4 corridor to Central Florida and beyond. Adjacent amenities include the Airport Business Park, Riverbend Golf Course, and the Ormond Beach Sports Complex.

Property: Airside parcels are available for aviation-related businesses and aviation support services. The airport has over 100 acres of airside property and several shovel-ready sites at hand. Economic Development incentives are available to eligible businesses.
