Aviation Interiors Expo

The Aircraft Interiors Expo (AIX) is the leading airline interiors trade fair and global marketplace for elevating passenger experiences. As the world's largest exhibition for the cabin interiors industry, AIX brings together over 450 exhibitors from around the globe to offer an exciting preview of the future of air travel. TVEDC's Keith Norden attended, where he met with corporate decision makers to present the advantages available to companies operating in our region. He attended several seminars highlighting the airlines need to retrofit existing cabin spaces which detailed updates in the Maintenance Repair and Operations (MRO) industry sector.

As validated and recommended by Boyette Strategic Advisors in **TeamVolusia2030**, TVEDC's strategic plan continues to focus on the aviation/aerospace as one of our top seven target industries.
