

## January 2026 BRIEF

Highlights of our Team Volusia EDC activities for January.  
Thank you for subscribing!

### OUTREACH

**Outreach Meetings in January: 136**  
**Site Visits in January: 1**

#### Consumer Electronics Show (CES)

TVEDC's Frank Jones attended the CES trade show where he engaged with leading innovators and explored emerging technologies shaping the future of the industry. The experience provided valuable insights into trends across A.I., mobility, and smart infrastructure. CES was a productive outreach event both for gathering intelligence and to represent Volusia County's assets and opportunities on a global stage.

#### Japan - Florida Meeting

The Japan - Florida Meeting was hosted by The Consul General of Japan in Miami, Junya Nakano. With a focus on housing development, aviation, and space sectors discussions occurred with key stakeholders on successful business collaborations between Japan and Florida. Remarks were made by Florida Secretary of Commerce J. Alex Kelly as well as Matt Swanson, DBA, President of SelectFlorida. Presentations were made by Ms. Victoria Jaramillo, Chief Commercial Officer, Greater Orlando Aviation Authority and Mr. Kenichi Kosuga, Executive Officer, JR West Real Estate Development. Keith Norden joined representatives from Space Florida and other economic development regions around the State.

#### SpaceCom

For the past several years, Team Volusia has been proud to host a booth at SpaceCom, and invite economic developers in the county to attend, with John Cox, City of Deltona, and Mike Arman, City of Oak Hill, joining us this year. Our exhibit in 2026 generated strong interest from both international delegations and domestic partners pursuing opportunities within the expanding Space Triangle. Frank Jones and Monty Fletcher were on site to represent for Volusia County, and further strengthen relationships with federal agencies, primary employers, supply chain firms, capital markets, and others. It was a productive week of collaboration, visibility, and momentum-building for the future of our region's space economy.
